How to read this report

- EQAO percentages are the share of students at or above the provincial standard (level 3 or 4).
- Ontario rank compares every school with published results for that assessment; #1 is the best.
- The Fraser Institute Report Card scores schools out of 10 from EQAO-derived indicators, so it reflects test results rather than teaching, programs or school climate.
- Small cohorts move these numbers sharply from year to year; the five-year figures are steadier.
- Results are not adjusted for the make-up of a school's student population.
