NMRHS Graduation - Friday, June 4th

Jun 11 Early Release - 180th Day of School 0 Snow Days

Jun 21 Early Release - 180th Day of School 5 Snow Days

SC Approved: February 24, 2026

For 2-hour snow/ice delays, only administration, building and grounds, and food service staff should report at their normal times. All other staff should arrive no earlier than: SECC: 10:35 a.m., SMS: 10:35 a.m., VBES: 10:30 a.m., HBMS: 9:30 a.m., NMS: 9:30 a.m., and NMRHS: 8:30 a.m. These arrival times allow for proper snow removal and campus treatment and help ensure staff safety. Excess vehicles in parking lots create safety hazards and delay clearing operations.

2026 - 2027 NORTH MIDDLESEX REGIONAL SCHOOL DISTRICT INFORMATION

REGULAR STARTING AND DISMISSAL SCHEDULE

School	Arrival	Start	End
SECC PreK AM		9:15 a.m.	11:45 a.m.
SECC PreK PM		12:15 p.m.	2:45 p.m.

POLICIES

[Policy Manual](#)

Religious Holidays - K-12: For practices related to religious holidays, please refer to policy IMD. [Full policy can be found here](#)

The North Middlesex Regional School District encourages all students and staff members to appreciate and be tolerant of each other's religious views and will use every opportunity available to foster understanding and mutual respect among students and caregivers whether it involves race, culture, economic background, or religious beliefs. In that spirit of tolerance, students and staff members will be excused from participating in practices that are contrary to their religious beliefs

WEATHERING THE STORM: NM GUIDE TO DELAYS, EARLY RELEASES, AND CANCELLATIONS

A MESSAGE FROM THE SUPERINTENDENT OF SCHOOLS

Dear NM Families,

Although these questions relate to winter weather more often than not, New England is a region where weather can force a school cancellation or school day modification at any time.

One of the most difficult challenges I have as a Superintendent is deciding whether or not to delay or cancel school due to weather or unsafe conditions. Unfortunately, this decision-making process is far from a perfect science.

However, it is important for students, caregivers, and staff to understand how it works, as each town/city has its unique set of factors that are considered when determining delays and/or cancellations. I hope this FAQ document answers your questions.

Who makes the decision about whether or not to close school?

As Superintendent, I am responsible for the final decision. I work with District staff to monitor state and local weather forecasts and consult, as needed, with officials from Ashby, Pepperell, and Townsend, who update me on snow removal operations and neighborhood road conditions. I also collaborate with our neighboring districts. It is important to understand that this decision hinges on the status of road conditions. Even if your street looks clear, travel elsewhere in the district may be dangerous.

What time do you make the call?

My goal is to make the decision to open, close, or delay by 5:15 a.m. or earlier. While I know there is often an interest in having a decision the night before, this is New England, and a lot can change overnight. Whenever possible, caregivers will be informed of delayed starts and/or cancellations the evening prior should the meteorological information we have at that time allow us to make these proactive decisions. We realize that this assists families in the planning of alternative means of transportation and/or childcare.

How is the decision made?

There are multiple factors used in deciding whether or not to close school. Information on road conditions, snow accumulation predictions, building conditions such as electricity and heat, parking lot conditions, air temperature and wind chill, and estimated times from the DPW as to when roads, walkways, and parking lots will be cleared of snow and ice. Ultimately, buses need to be able to navigate the district safely. I prefer not to make my decision based solely on weather predictions, which are not always accurate. However, sometimes this is unavoidable. We share information with other local districts and check whether they are opening or closing. However, these conditions vary greatly (especially in NM) depending on the town, even if they are our next-door neighbor.

Generally, school will not be canceled or have a modified day solely based on extreme outdoor temperatures (hot or cold) or a power outage. Each building has a generator to supply emergency power to specific areas in each building, including the cafeteria. While I realize extreme temperatures and power outages are not optimal for learning, we can still provide meals and supervision to students, both of which many of our families depend on. With the state *time on learning* requirements, we

have to be mindful of the possibility of extreme heat well into September and during the month of June, along with a very cold winter.

What is a delayed opening?

Rather than close school for a whole day due to short-term weather situations, there may be days when the opening of school will be delayed two hours. School will simply start two hours later on that day. Bus pickup, therefore, will also occur two hours later. For example, if your child is typically picked up at 7:40 am, they will be picked up at 9:40 am during a two-hour delayed opening. Lunch will still be available, and dismissal will be at the regularly scheduled times.

IMPORTANT:

There may be times when a two-hour delay must be moved to a full cancellation if the anticipated improvement in road conditions has not occurred.

Will you dismiss early if a storm is unexpectedly heavy during the school day?

Early dismissals are very unlikely as we risk sending students home to empty houses. Families should have a plan in place in the event it is necessary. Our system uses the same buses to transport all of the grades. This is why our school start and dismissal times are staggered. After one group is transported, the buses begin the next tier. We cannot call additional buses to release all the students from all the schools simultaneously. Therefore, conditions may warrant a staggered early dismissal for all schools. This will allow the buses with slow driving conditions to get a head start on their first route and arrive at the elementary schools close to the planned dismissal time.

What about bus transportation during storms?

Waiting at home for a child to arrive when the bus is late can be difficult, especially during a storm. Road and traffic conditions will slow the travel. Please remember that your child is safest on the bus due to its size as it slowly moves through town in a storm. This slowdown can be compounded as the buses complete their loops from school to school. If a run requires ten extra minutes to deliver students safely, the buses begin the next loop 10 minutes late. If the next run takes ten additional minutes, the bus is now 20 minutes late, etc.

What about sidewalks and getting to bus stops?

The DPW clears the sidewalks as soon as they can. In most towns, the town relies on property owners and citizens to clear their walkways. Families must be aware that unfavorable sidewalk conditions can occur during and after a snowstorm. Even if sidewalks have been cleaned, citizens clearing their driveways and walkways can cause sidewalks to be blocked. Melting and re-freezing of snow can also create an icing situation. Families should always be aware of the conditions of their child's walk to school or the bus stop and act accordingly.

What are caregivers' responsibilities?

Ultimately, I realize that regardless of my decision, some will disagree, and your child's safety is paramount. If you do not feel it is safe for your child to attend school, use your best judgment when deciding whether your child should attend. Also, please discourage teenagers from driving in bad conditions and offer them alternatives if weather conditions worsen. We ask caregivers of young drivers to reinforce winter weather driving skills by allowing extra travel time, reducing

speed, and not worrying about being late. We encourage all caregivers to proactively make alternative arrangements for all pending inclement weather situations that may impact the school day.

How are days made up?

If school is closed due to weather, the day will be made up at the end of the school year. Massachusetts is a state that has both an hours and days requirement. Every public school in the district must be in operation for 180 days with one exception: school districts cannot go into July if a school district has used April vacation. The only alternatives if we run out of time on the calendar are to consider Saturdays (which is very rare) or to add time onto our days in May and June to make up a day(s). It is essential to consider how warm it can be during June, in addition to students being focused on getting out for summer vacation.

How do power outages affect the decision?

Inclement weather can affect the timeline for utility companies to restore electricity. If all school buildings have electricity, the goal will be to open school. School will only be canceled if road conditions are unsafe and/or if the school's generator is not operational.

What about after-school activities?

If school is canceled or, in a rare situation, released early, all after-school activities will be canceled unless it is a state tournament athletic contest, which is under the purview of the Massachusetts Interscholastic Athletic Association.

How is the public notified?

Announcements about school closings and delays are posted as outlined below. Please be advised that depending upon the storm's severity, school and district administration offices may also be closed, in addition to canceling student classes.

- District website www.nmrtd.org
- District Facebook page
<https://www.facebook.com/NorthMiddlesexRegionalSchool>
- District email
- District phone call ("robocall") if the timing is appropriate
- Local Television and Radio:
 - WBZ-Ch. 4
 - WCVB-Ch. 5
 - WHDH-Ch. 7
 - FOX-Ch. 25
 - NECN

Each station also posts school closings on its website.

I hope this FAQ helps everyone understand the process used to make the best possible decision for our students.
