* Four emergency closing days are built into the calendar in anticipation that there may be a need to close school due to inclement weather or other unexpected situations. Should we not make use of these emergency closing days, school will be closed on the days where an asterisk is present.

If we have emergency closing dates, the calendar will be adjusted as follows:

1. If we have an emergency closing date prior to February 15, school will be in session on February 16.
2. Following, the next date that the district would be in session due to an emergency closing date is June 2.
3. Following, the next date the district would be in session due to an emergency closing date is June 1.
4. The final built in date that the district would be in session due to an emergency closing date is June 18.

If we need to make up days beyond the four built in days, we will do so during spring break beginning with April 2 and working backwards.
